

DATA PROTECTION DECLARATION

We are very delighted that you have shown interest in our enterprise. Data protection is of a particularly high priority for the management of VISIONAIRtronics GmbH. The VISIONAIRtronics GmbH website can be used without providing any personal data. However, if a data subject wishes to make use of special services of our company via our website, it may be necessary to process personal data. If the processing of personal data is necessary and there is no legal basis for such processing, we generally obtain the consent of the data subject.

The processing of personal data, such as the name, address, e-mail address or telephone number of a data subject, is always carried out in accordance with the General Data Protection Regulation and in accordance with the country-specific data protection regulations applicable to VISIONAIRtronics GmbH. By means of this data protection declaration, our company would like to inform the public about the type, scope and purpose of the personal data we collect, use and process. Furthermore, data subjects are informed of their rights by means of this data protection declaration.

As the controller, VISIONAIRtronics GmbH has implemented numerous technical and organisational measures to ensure that the personal data processed via this website is protected as completely as possible. Nevertheless, Internet-based data transmissions can generally have security gaps, so that absolute protection cannot be guaranteed. For this reason, every data subject is free to transmit personal data to us by alternative means, for example by telephone.

1. Definitions

The data protection declaration of VISIONAIRtronics GmbH is based on the terms used by the European legislator for the adoption of the General Data Protection Regulation (GDPR). Our privacy policy should be easy to read and understand for the public as well as for our customers and business partners. To ensure this, we would like to explain the terminology used in advance.

We use the following terms, among others, in this privacy policy

a) Personal data

Personal data is any information relating to an identified or identifiable natural person (hereinafter "data subject"). An identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

b) Data subject

Data subject is any identified or identifiable natural person whose personal data is processed by the controller.

c) Processing

Processing is any operation or set of operations which is performed on personal data or on sets of personal data, whether or not by automated means, such as collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

d) Restriction of processing

Restriction of processing is the marking of stored personal data with the aim of restricting its future processing.

e) Profiling

Profiling means any form of automated processing of personal data consisting of the use of personal data to evaluate certain personal aspects relating to a natural person, in particular to analyse or predict aspects concerning that natural person's performance at work, economic situation, health, personal preferences, interests, reliability, behaviour, location or movements.

f) Pseudonymisation

Pseudonymisation is the processing of personal data in such a manner that the personal data can no longer be attributed to a specific data subject without the use of additional information, provided that such additional information is kept separately and is subject to technical and organisational measures to ensure that the personal data are not attributed to an identified or identifiable natural person.

g) Controller or controller responsible for the processing

The controller or controller responsible for the processing is the natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data. Where the purposes and means of such processing are determined by Union or Member State law, the controller or the specific criteria for its nomination may be provided for by Union or Member State law.

h) Processor

A processor is a natural or legal person, public authority, agency or other body which processes personal data on behalf of the controller.

i) Recipient

Recipient is a natural or legal person, public authority, agency or another body, to which the personal data are disclosed, whether a third party or not. However, public authorities which may receive personal data in the framework of a particular enquiry in accordance with Union or Member State law shall not be regarded as recipients.

j) third party

A third party is a natural or legal person, public authority, agency or body other than the data subject, the controller, the processor and the persons who, under the direct authority of the controller or processor, are authorised to process the personal data.

k) Consent

Consent is any freely given, specific, informed and unambiguous indication of the data subject's wishes by which he or she, by a statement or by a clear affirmative action, signifies agreement to the processing of personal data relating to him or her.

2. Name and address of the controller responsible for processing

The controller within the meaning of the General Data Protection Regulation, other data protection laws applicable in the Member States of the European Union and other provisions of a data protection nature is

VISIONAIRtronics GmbH

Grabengasse 29

7142 Illmitz

Austria

Phone: +43 2167-90618-00

E-mail: info@vat.aero

Website: www.vat.aero

3. Cookies

The Internet pages of VISIONAIRtronics GmbH use cookies. Cookies are text files that are placed and stored on a computer system via an Internet browser.

Numerous websites and servers use cookies. Many cookies contain a so-called cookie ID. A cookie ID is a unique identifier of the cookie. It consists of a character string that allows websites and servers to be assigned to the specific internet browser in which the cookie was stored. This enables the websites and servers visited to distinguish the individual browser of the data subject from other Internet browsers that contain other cookies. A specific Internet browser can be recognised and identified via the unique cookie ID.

Through the use of cookies, VISIONAIRtronics GmbH can provide the users of this website with more user-friendly services that would not be possible without the cookie setting.

Cookies can be used to optimise the information and offers on our website for the benefit of the user. As already mentioned, cookies enable us to recognise the users of our website. The purpose of this recognition is to make it easier for users to use our website. For example, the user of a website that uses cookies does not have to re-enter their access data each time they visit the website because this is taken over by the website and the cookie stored on the user's computer system. Another example is the cookie of a shopping basket in an online shop. The online shop remembers the items that a customer has placed in the virtual shopping basket via a cookie.

The data subject can prevent the setting of cookies by our website at any time by means of a corresponding setting of the Internet browser used and thus permanently object to the setting of cookies. Furthermore, cookies that have already been set can be deleted at any time via an internet browser or other software programmes. This is possible in all common Internet browsers. If the data subject deactivates the setting of cookies in the Internet browser used, not all functions of our website may be fully usable.

4. Collection of general data and information

The website of VISIONAIRtronics GmbH collects a series of general data and information each time the website is accessed by a data subject or an automated system. This general data and information is stored in the server log files. The (1) browser types and versions used, (2) the operating system used by the accessing system, (3) the website from which an accessing system accesses our website (so-called referrer), (4) the sub-websites which are accessed via an accessing system on our website can be recorded, (5) the date and time of access to the website, (6) an internet protocol address (IP address), (7) the internet service provider of the accessing system and (8) other similar data and information used for security purposes in the event of attacks on our information technology systems.

When using these general data and information, VISIONAIRtronics GmbH does not draw any conclusions about the data subject. Rather, this information is needed to (1) deliver the content of our website correctly, (2) optimise the content of our website and the advertising for it, (3) ensure the long-term functionality of our information technology systems and the technology of our website, and (4) provide law enforcement authorities with the information necessary for criminal prosecution in the event of a cyber attack. Therefore, VISIONAIRtronics GmbH analyses anonymously collected data and information statistically, with the aim of increasing the data protection and data security of our enterprise, and to ensure an optimal level of protection for the personal data we process. The anonymous data of the server log files are stored separately from all personal data provided by a data subject.

5. contact possibility via the website

The website of VISIONAIRtronics GmbH contains information that enables a quick electronic contact to our enterprise, as well as direct communication with us, which also includes a general address of the so-called electronic mail (e-mail address). If a data subject contacts the data controller by e-mail or via a contact form, the personal data transmitted by the data subject is automatically stored. Such personal data transmitted on a voluntary basis by a data subject to the controller are stored for the purposes of processing or contacting the data subject. This personal data is not passed on to third parties.

6. Routine erasure and blocking of personal data

The controller shall process and store the personal data of the data subject only for the period necessary to achieve the purpose of storage, or as far as this is granted by the European legislator or other legislators in laws or regulations to which the controller is subject to.

If the purpose of storage ceases to apply or if a storage period prescribed by the European Directive and Regulation Giver or another competent legislator expires, the personal data will be routinely blocked or deleted in accordance with the statutory provisions.

7. Rights of the data subject

a) Right to confirmation

Each data subject shall have the right granted by the European legislator to obtain from the controller the confirmation as to whether or not personal data concerning him or her are being processed. If a data subject wishes to avail himself of this right of confirmation, he or she may, at any time, contact any employee of the controller.

b) Right to information

Any person affected by the processing of personal data has the right granted by the European legislator of directives and regulations to obtain, at any time and free of charge, information from the controller concerning the personal data stored about him or her and a copy of that information. Furthermore, the European legislator has granted the data subject access to the following information:

- the purposes of the processing
- the categories of personal data that are processed
- the recipients or categories of recipients to whom the personal data have been or will be disclosed, in particular recipients in third countries or international organisations
- where possible, the envisaged period for which the personal data will be stored, or, if not possible, the criteria used to determine that period
- the existence of the right to request from the controller rectification or erasure of personal data or restriction of processing of personal data concerning the data subject or to object to such processing
- the existence of the right to lodge a complaint with a supervisory authority
- if the personal data are not collected from the data subject: All available information about the origin of the data
- the existence of automated decision-making, including profiling, referred to in Article 22(1) and (4) of the GDPR and, at least in those cases, meaningful information about the logic involved, as well as the significance and envisaged consequences of such processing for the data subject

Furthermore, the data subject has a right to information as to whether personal data has been transferred to a third country or to an international organisation. If this is the case, the data subject also has the right to obtain information about the appropriate safeguards in connection with the transfer.

If a data subject wishes to avail himself of this right of access, he or she may, at any time, contact any employee of the controller.

c) Right to rectification

Any person affected by the processing of personal data has the right, granted by the European legislator, to request the immediate rectification of inaccurate personal data concerning him or her. Furthermore, the data subject has the right to request the completion of incomplete personal data, including by means of a supplementary declaration, taking into account the purposes of the processing.

If a data subject wishes to exercise this right to rectification, he or she may, at any time, contact any employee of the controller.

d) Right to erasure (right to be forgotten)

Any person affected by the processing of personal data has the right, granted by the European legislator, to obtain from the controller the erasure of personal data concerning him or her without undue delay where one of the following grounds applies and insofar as the processing is not necessary

- The personal data have been collected or otherwise processed for such purposes for which they are no longer necessary.
- The data subject withdraws consent on which the processing is based according to point (a) of Article 6(1) of the GDPR, or point (a) of Article 9(2) of the GDPR, and where there is no other legal ground for the processing.
- The data subject objects to the processing pursuant to Article 21(1) of the GDPR and there are no overriding legitimate grounds for the processing, or the data subject objects to the processing pursuant to Article 21(2) of the GDPR.
- The personal data have been processed unlawfully.
- The deletion of personal data is necessary to fulfil a legal obligation under Union law or the law of the Member States to which the controller is subject.
- The personal data have been collected in relation to the offer of information society services referred to in Article 8(1) GDPR.

If one of the aforementioned reasons applies, and a data subject wishes to request the erasure of personal data stored by VISIONAIRtronics GmbH, he or she may, at any time, contact any employee of the controller. An employee of VISIONAIRtronics GmbH shall promptly ensure that the erasure request is complied with immediately.

If the personal data have been made public by VISIONAIRtronics GmbH and our company, as the controller, is obliged pursuant to Art. 17 para. 1 GDPR to erase the personal data, VISIONAIRtronics GmbH shall, taking account of available technology and the cost of implementation, take reasonable steps, including technical measures, to inform other controllers processing the personal data that the data subject has requested erasure by such controllers of any links to, or copy or replication of, those personal data, as far as processing is not required. An employee of VISIONAIRtronics GmbH will arrange the necessary measures in individual cases.

e) Right to restriction of processing

Any person affected by the processing of personal data has the right, granted by the European legislator, to obtain from the controller restriction of processing where one of the following applies

- The accuracy of the personal data is contested by the data subject, for a period enabling the controller to verify the accuracy of the personal data.
- The processing is unlawful and the data subject opposes the erasure of the personal data and requests the restriction of their use instead.
- The controller no longer needs the personal data for the purposes of the processing, but they are required by the data subject for the establishment, exercise or defence of legal claims.

- The data subject has objected to processing pursuant to Article 21(1) GDPR pending the verification whether the legitimate grounds of the controller override those of the data subject.

- If one of the aforementioned conditions is met, and a data subject wishes to request the restriction of the processing of personal data stored by VISIONAIRtronics GmbH, he or she may at any time contact any employee of the controller. The employee of VISIONAIRtronics GmbH will arrange for the processing to be restricted.

f) Right to data portability

Each data subject shall have the right granted by the European legislator to receive the personal data concerning him or her, which he or she has provided to a controller, in a structured, commonly used and machine-readable format. He or she also has the right to transmit those data to another controller without hindrance from the controller to which the personal data have been provided, as long as the processing is based on consent pursuant to point (a) of Article 6(1) of the GDPR or point (a) of Article 9(2) of the GDPR, or on a contract pursuant to point (b) of Article 6(1) of the GDPR, and the processing is carried out by automated means, as long as the processing is not necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.

Furthermore, in exercising their right to data portability pursuant to Art. 20 (1) GDPR, the data subject has the right to have the personal data transmitted directly from one controller to another, where technically feasible and provided that this does not adversely affect the rights and freedoms of others.

In order to assert the right to data portability, the data subject may at any time contact any employee of VISIONAIRtronics GmbH.

g) Right to object

Any person affected by the processing of personal data has the right granted by the European legislator to object, on grounds relating to his or her particular situation, at any time to processing of personal data concerning him or her which is based on point (e) or (f) of Article 6(1) of the GDPR. This also applies to profiling based on these provisions.

VISIONAIRtronics GmbH shall no longer process the personal data in the event of the objection, unless we can demonstrate compelling legitimate grounds for the processing which override the interests, rights and freedoms of the data subject, or for the establishment, exercise or defence of legal claims.

If VISIONAIRtronics GmbH processes personal data for direct marketing purposes, the data subject shall have the right to object at any time to processing of personal data concerning him or her for such marketing. This also applies to profiling insofar as it is associated with such direct advertising. If the data subject objects to the VISIONAIRtronics GmbH to the processing for direct marketing purposes, the VISIONAIRtronics GmbH will no longer process the personal data for these purposes.

In addition, the data subject has the right, on grounds relating to his or her particular situation, to object to processing of personal data concerning him or her by VISIONAIRtronics GmbH for scientific or historical research purposes, or for statistical purposes pursuant to Article 89(1) of the GDPR, unless the processing is necessary for the performance of a task carried out for reasons of public interest.

In order to exercise the right to object, the data subject may contact any employee of VISIONAIRtronics GmbH or another employee directly. The data subject is also free, in the context of

the use of information society services, and notwithstanding Directive 2002/58/EC, to exercise his or her right to object by automated means using technical specifications.

h) Automated decisions in individual cases, including profiling

Any person affected by the processing of personal data has the right, granted by the European legislator, not to be subject to a decision based solely on automated processing, including profiling, which produces legal effects concerning him or her or similarly significantly affects him or her, provided that the decision (1) is not necessary for the conclusion or performance of a contract between the data subject and the controller, or (2) is authorised by Union or Member State law to which the controller is subject and which also lays down suitable measures to safeguard the data subject's rights and freedoms and legitimate interests, or (3) is based on the data subject's explicit consent.

If the decision (1) is necessary for entering into, or the performance of, a contract between the data subject and a data controller, or (2) it is based on the data subject's explicit consent, the VISIONAIRtronics GmbH shall implement suitable measures to safeguard the data subject's rights and freedoms and legitimate interests, at least the right to obtain human intervention on the part of the controller, to express his or her point of view and contest the decision.

If the data subject wishes to exercise the rights concerning automated individual decision-making, he or she may, at any time, contact any employee of the controller.

i) Right to withdraw consent under data protection law

Any person affected by the processing of personal data has the right granted by the European legislator of directives and regulations to withdraw consent to the processing of personal data at any time.

If the data subject wishes to exercise the right to withdraw the consent, he or she may, at any time, contact any employee of the controller.

8. data protection provisions about the application and use of Google Analytics (with anonymisation function)

The controller has integrated the Google Analytics component (with anonymisation function) on this website. Google Analytics is a web analytics service. Web analysis is the collection, gathering and evaluation of data about the behaviour of visitors to websites. Among other things, a web analysis service collects data about the website from which a data subject came to a website (so-called referrer), which subpages of the website were accessed or how often and for how long a subpage was viewed. Web analysis is mainly used to optimise a website and to analyse the costs and benefits of internet advertising.

The operating company of the Google Analytics component is Google Inc, 1600 Amphitheatre Pkwy, Mountain View, CA 94043-1351, USA.

The data controller uses the addition "_gat._anonymiselp" for web analysis via Google Analytics. This addition is used by Google to shorten and anonymise the IP address of the data subject's Internet connection if our website is accessed from a member state of the European Union or from another state party to the Agreement on the European Economic Area.

The purpose of the Google Analytics component is to analyse the flow of visitors to our website. Among other things, Google uses the data and information obtained to analyse the use of our website,

to compile online reports for us that show the activities on our website, and to provide other services in connection with the use of our website.

Google Analytics places a cookie on the data subject's IT system. What cookies are has already been explained above. By setting the cookie, Google is enabled to analyse the use of our website. Each time one of the individual pages of this website is accessed, which is operated by the data controller and on which a Google Analytics component has been integrated, the Internet browser on the information technology system of the data subject is automatically prompted by the respective Google Analytics component to transmit data to Google for the purpose of online analysis. During the course of this technical procedure, Google gains knowledge of personal information, such as the IP address of the data subject, which serves Google, inter alia, to understand the origin of visitors and clicks, and subsequently create commission settlements.

The cookie is used to store personal information, such as the access time, the location from which access was made and the frequency of visits to our website by the data subject. Each time our website is visited, this personal data, including the IP address of the internet connection used by the data subject, is transmitted to Google in the United States of America. This personal data is stored by Google in the United States of America. Google may share this personal data collected through the technical process with third parties.

The data subject may, as stated above, prevent the setting of cookies through our website at any time by means of a corresponding adjustment of the web browser used and thus permanently deny the setting of cookies. Such a setting of the Internet browser used would also prevent Google from placing a cookie on the information technology system of the data subject. In addition, a cookie already set by Google Analytics can be deleted at any time via the Internet browser or other software programmes.

Furthermore, the data subject has the option of objecting to and preventing the collection of data generated by Google Analytics relating to the use of this website and the processing of this data by Google. To do this, the data subject must download and install a browser add-on from the link <https://tools.google.com/dlpage/gaoptout>. This browser add-on informs Google Analytics via JavaScript that no data and information about visits to websites may be transmitted to Google Analytics. The installation of the browser add-on is recognised by Google as an objection. If the data subject's IT system is deleted, formatted or reinstalled at a later date, the data subject must reinstall the browser add-on in order to deactivate Google Analytics. If the browser add-on is uninstalled or deactivated by the data subject or another person who is attributable to their sphere of control, it is possible to reinstall or reactivate the browser add-on.

Further information and the applicable data protection provisions of Google may be retrieved under <https://www.google.de/intl/de/policies/privacy/> and under <http://www.google.com/analytics/terms/de.html>. Google Analytics is explained in more detail at this link https://www.google.com/intl/de_de/analytics/.

9. Legal basis of the processing

Art. 6 I lit. a GDPR serves our company as the legal basis for processing operations for which we obtain consent for a specific processing purpose. If the processing of personal data is necessary for the fulfilment of a contract to which the data subject is a party, as is the case, for example, with processing operations that are necessary for the delivery of goods or the provision of other services or consideration, the processing is based on Art. 6 I lit. b GDPR. The same applies to such processing operations that are necessary for the performance of pre-contractual measures, for example in cases of enquiries about our products or services. If our company is subject to a legal obligation which requires the processing of personal data, such as for the fulfilment of tax obligations, the processing is based on Art. 6 I lit. c GDPR. In rare cases, the processing of personal data may become necessary in order to protect the vital interests of the data subject or another natural person. This would be the

case, for example, if a visitor were injured on our premises and their name, age, health insurance details or other vital information would have to be passed on to a doctor, hospital or other third party. The processing would then be based on Art. 6 I lit. d GDPR. Ultimately, processing operations could be based on Art. 6 I lit. f GDPR. Processing operations that are not covered by any of the aforementioned legal bases are based on this legal basis if the processing is necessary to safeguard a legitimate interest of our company or a third party, provided that the interests, fundamental rights and freedoms of the data subject do not prevail. We are permitted to carry out such processing operations in particular because they have been specifically mentioned by the European legislator. In this respect, it took the view that a legitimate interest could be assumed if the data subject is a customer of the controller (Recital 47 Sentence 2 GDPR).

10. Legitimate interests in the processing pursued by the controller or by a third party

Where the processing of personal data is based on Article 6 I lit. f GDPR our legitimate interest is to carry out our business in favour of the well-being of all our employees and our shareholders.

11. Duration for which the personal data is stored

The criterion for the duration of the storage of personal data is the respective statutory retention period. Once this period has expired, the corresponding data is routinely deleted, provided it is no longer required for the fulfilment or initiation of a contract.

12. Legal or contractual provisions for the provision of personal data; necessity for the conclusion of the contract; obligation of the data subject to provide the personal data; possible consequences of non-provision

We would like to inform you that the provision of personal data is partly required by law (e.g. tax regulations) or may also result from contractual regulations (e.g. information on the contractual partner). Sometimes it may be necessary for a contract to be concluded for a data subject to provide us with personal data that must subsequently be processed by us. For example, the data subject is obliged to provide us with personal data if our company concludes a contract with them. Failure to provide the personal data would mean that the contract with the data subject could not be concluded. Before personal data is provided by the data subject, the data subject must contact one of our employees. Our employee will inform the data subject on a case-by-case basis whether the provision of the personal data is required by law or contract or is necessary for the conclusion of the contract, whether there is an obligation to provide the personal data and what the consequences would be if the personal data were not provided.

13. Existence of automated decision-making

As a responsible company, we do not use automated decision-making or profiling.

Disclaimer

Liability claims against VISIONAIRtronics relating to material or non-material damage caused by the use of the information provided or by the use of incorrect or incomplete information are fundamentally excluded, unless there is evidence of wilful intent or gross negligence on the part of VISIONAIRtronics. VISIONAIRtronics expressly reserves the right to change, supplement or delete parts of the pages or the entire offer without prior notice or to temporarily

or permanently cease publication. In the case of direct or indirect references to external websites ("hyperlinks") that lie outside the area of responsibility of VISIONAIRtronics, a liability obligation would only come into force in the event that VISIONAIRtronics is aware of the content and it would be technically possible and reasonable to prevent use in the event of illegal content. The copyright for published objects created by VISIONAIRtronics itself remains solely with VISIONAIRtronics. Reproduction or use of such graphics, sound documents, video sequences and texts in other electronic or printed publications is not permitted without the express consent of VISIONAIRtronics.
